

## **Why you teach it - your purpose of study**

At Audlem, we believe that physical activity has a positive and direct impact on physical & mental well-being, health and happiness. In line with the National Curriculum, it is our intent to provide children with 2 hours of high-quality PE tuition every week. This is typically broken down into sessions that develop physical literacy skills and then a sports session to develop and embed the skills taught. We believe that this approach allows children to develop physical, cognitive, social and collaborative skills.

## **INTENT**

### **What you teach - your programme(s) of study**

As a valued subject at Audlem, the two hours of timetabled PE sessions per week are taught in line with our Physical Literacy assessment & planning tool, 'Amaven'. This system tracks & monitors the Physical Literacy (PL) of all children in school. A benchmark assessment is taken in the first few weeks of the Autumn Term then PL is assessed at the end of every term thereafter. The assessment monitors a variety of key factors and gives an overall PL score as well as highlighting areas for all children individually and as a class to develop. The system will then identify suggested sports and skills planning to help address these identified areas of development.

To ensure a broad and balanced curriculum is delivered, all class teachers note the sports taught during their year of teaching so that future teachers can deliver different sports to ensure variety & full engagement from all children.

## **IMPLEMENTATION**

### **How you teach it - your delivery of the above**

PE is timetabled for a minimum of 2 hours per week. All staff that teach PE have access to the Amaven system and are responsible for checking their class results and selecting skills and sports which the tuition of is complimentary to the development points identified by the system. **All staff responsible for the delivery of PE will receive additional CPAD during the Summer Term 2023.**

PE Sports Funding is utilized effectively to ensure that high-quality CPD and resources are available for all pupils to make excellent progress. This spending is monitored by the Head Teacher, Bursar and Governors to ensure value-add to the subject & appropriate use of resources.

## **IMPACT**

### **So what - your evaluations of the above**

- High quality, consistent and well-resourced PE sessions delivered by highly-competent staff and sports-specialists.
- A whole-school data set that evolves termly to identify key trends, needs and progression
- Increased confidence of children when attempting sporting competition (both internally and externally)
- Improved 'active culture' across school
- Increased participation in Level 2 competition (documented pre-Covid)
- Improved Physical Literacy scores for the vast majority of children across school.
- Delivery of a multi-faceted PE curriculum ensuring all children have the opportunity to excel
